November 13, 1990

MINUTES

Motion by Commissioner Whittaker, seconded by Commissioner Vadnais, unanimous that the minutes of the last regular meeting of the Board on October 9, 1990, be approved as written.

ROAD & BRIDGE UP-DATE

Rod Belcher met with the Commission and the group discussed equipment to maintain landfills. Belcher gave the Board some prices on a compactor and trailer also a firm price of $4000 on a 40 yard dumpster box and transfer stations. The group discussed a new site whereas they can not get down more than seven feet where the landfill is now west of Interstate 15. Orlin Gunderson said that his equipment can dig 21 feet if the county need help and he will be done at the Sheep Station this date and could work on a project for them. Motion by Commissioner Whittaker, seconded by Commissioner Vadnais that Rod start on transfer stations right away.

Belcher said that he had helped J. J. Construction out last spring by trucking a crane in and out to Steel Creek camp ground and that they have not paid there bill yet. Advised to turn over to the County Attorney for collection. He said that he had some trouble trading equipment with the forest service. He would prefer that they ask ahead so that county personnel or Dick Hunter operates the equipment not unauthorized personnel.

The group discussed road reports and about twenty miles of road that the county is not getting credit for due to the use of gates instead of cattlegards. As this effects the county funding it was unanimous that Rod should look into this and make sure they get on the system. Some of the roads in question are Indian Creek, Divide Creek, Thomas McCulloughs, Fish Hatcher, Irvin Creek, Corral Creek, Lower Idmon, Modoc, Irvin Creek, Weber Creek, Cottonwood and Zweifel roads.

Motion by Commissioner Whittaker, seconded by Commissioner Vadnais unanimous that Belcher would purchase snow equipment.
