

Clark County Commissioners
Dept. of Road and Bridge

Dear Sirs,

The Byways committee has kiosks for various locations along the Byway roads. The one in Spencer will require a Turnout for cars to stop and read the information about the Byways with directions etc.. I am asking for some help to make the Turnout possible and also to install the kiosks.

I have discussed this with Mike Leonardson, Ted Edwards, and Mitch Whitmill. They seem to think that this would be possible

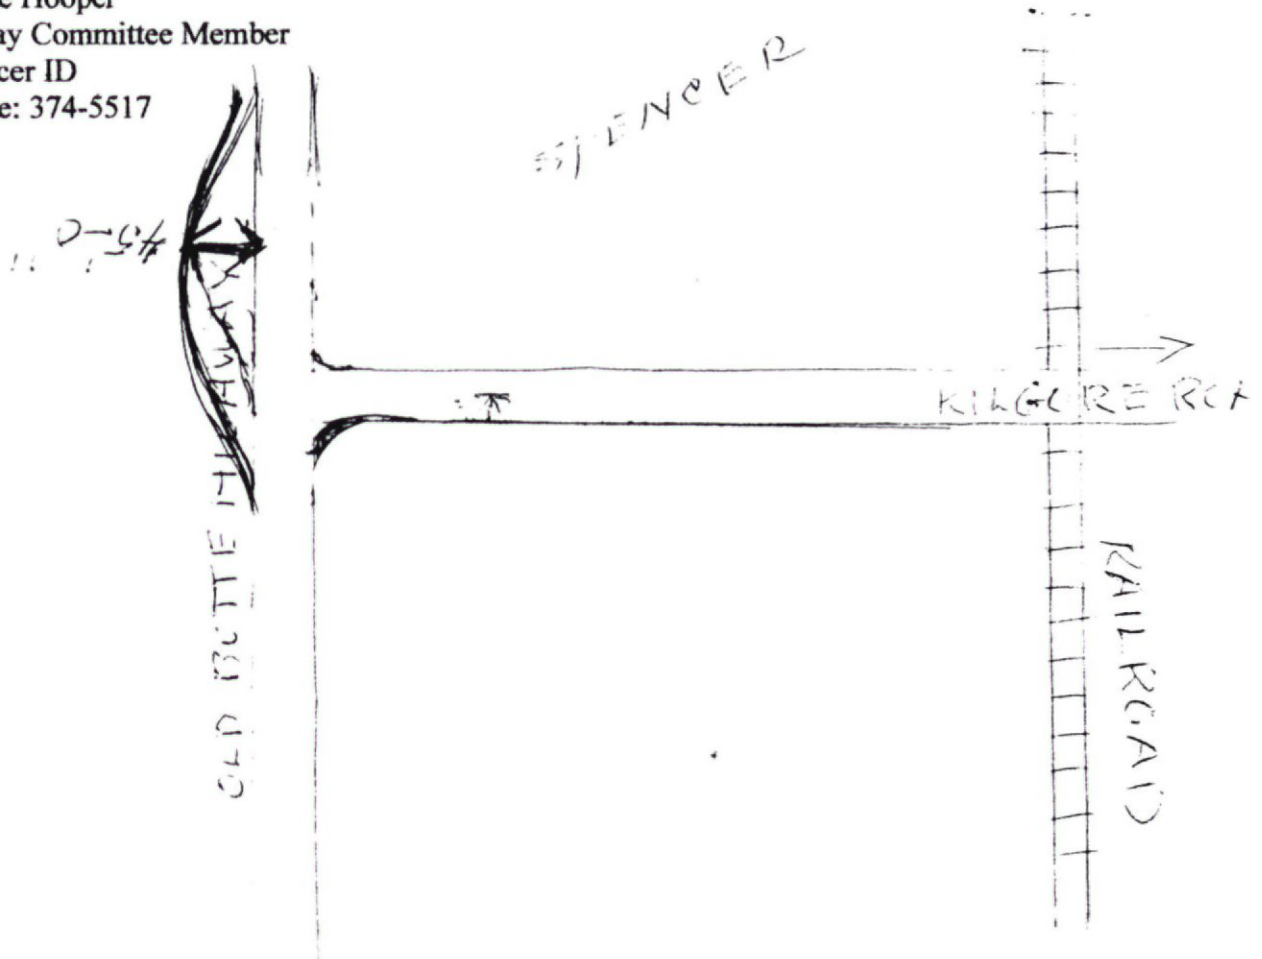

The place that would be good for the turnout is at the corner of the Old Butte Highway and Kilgore road, on the ~~west~~ side of the Old Butte road,

WEST

The signs are all paid for and almost ready to install. They are about 12'x8', three log poles with one log pole across the top. The two signs will hang between the three log poles at an angle, slightly from the center log toward the roads. I have included a picture of the finished sign.

Any help you can give me with getting the Spencer Byway Kiosk up will be very much appreciated.
