

## Site Plan Requirements

All site plans **are required** to include the following information, in detail, if applicable:

- |                                              |                                                                                                                                    |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| <input type="checkbox"/> Property lines      | <input type="checkbox"/> Waterways (canals and rivers)                                                                             |
| <input type="checkbox"/> Well                | <input type="checkbox"/> Roads                                                                                                     |
| <input type="checkbox"/> Septic & Drainfield | <input type="checkbox"/> Setbacks from the proposed structure to all of the above features (See <i>Setback Requirements</i> sheet) |
| <input type="checkbox"/> Existing structures | <input type="checkbox"/> Size of parcel                                                                                            |
| <input type="checkbox"/> Proposed structure  | <input type="checkbox"/> North Arrow                                                                                               |
| <input type="checkbox"/> Driveway            |                                                                                                                                    |

### Example
